# COUNTING ALASKA.

Agents Traveled Thousands of Miles by Dog Teams.

## SUFFERING AMONG NATIVES.

Future of Nome Peninsula Assured. Fur Bearing Animals Nearly Extinct-Denizens Live in Winter on Frozen Fish and Seal Oil.

WASHINGTON, D. C., Nov. 15 .- The census bureau recently completed the enumeration of the district of Alaska. The schedules have been received at the office and are now in process of tabulation.

Mr. Samuel C. Dunham, who had charge of the work in the northern district, returned to Washington a few days ago and submitted his final report. Mr. Dunham left Washington May 1599 and arrived at St. Michael July 5. He established fifteen enumeration dis tricts and appointed fifteen special agents, who were paid \$9 a day, with an allowance of \$7 a day for dog team and interpreter. The period of employ ment of the special agents varied from three to eight months, according to conditions prevailing in their various districts. Many of the special agents had great difficulties to overcome and suffered great hardships, but all completed their work. Perhaps the most difficult district to enumerate was that comprising the Arctic coast, from Point Hope to Denmarkation Point.

Mr. Charles D. Bromer, the agent for the district, traveled 2,000 miles by dog team during the winter and enumerated 1.860 persons-twenty-four whites, nine Japanese and 1,837 natives. The native and mixed population of the northern district of Alaska is 12,652.

### Destitution of the Natives.

The most populous district with re spect to the native population is the country lying between the mouth of the Yukon and the Kusoquin rivers and extending back from the coast one hundred miles. Mr. Maurice Johnson, the agent for this district, traveled over 2,000 miles with dog team during the winter, and enumerated 3,013 persons, all of whom were Indians. The Indians in this region are probably the most destitute people in the North American continent. Mr. Johnson reports that from December 1 to March 15 he visited seventy-four Indian villages, and during that time saw but three fires burning in the shacks or dugouts. The poor creatures huddle together in their miserable dwellings during the long winter and subsist on frozen fish and a little seal oil, which they secure on the coast during the summer.

The fur-bearing animals, which for merly furnished them with natural clothing, are nearly extinct, and they have been forced to adopt the white man's garb, and as their poverty prevents them from securing enough to cover their nakedness there is great suffering from the cold. The spiritual condition of these neglected natives is no better than the physical, as the missionaries devote their attention to the fields in the gold regions and along the

### The Nome District.

The Nome district is the most populous in northern Alaska. The enumer ation showed a permanent white population on June 1 of 2,704. During the summer about 18,000 persons landed at Nome, about 2,500 of them coming from Dawson. About 12,000 have returned to their homes in the states, leaving about 9,000 persons in the region contiguous to Nome. It is probable that the population of the town of Nome during the winter will be between 4,000 and 5,000.

The future of the Nome peninsula is assured. The developments during the past summer have shown the region about Port Clarence, eighty miles to the westward of Nome, to be as rich as Name, if not richer. The Topkuk district, seventy miles to the eastward of Nome, is showing many rich creeks, and some promising quartz has been found. Many good creeks have been found from fifty to one hundred miles inland, and it is safe to predict that the Nome region will prove to be as rich as the Klondike.

## Always Make a Bargain.

London Tit-Bits: London street boys are on the make whenever the opportunity offers, and they go about it in a business-like way. Not long ago the wind picked off a gentleman's fine silk hat, and whirling it aloft, left him bareheaded on the pavement.

"Here, boy!" he called to an urchin near by, "get my hat for me." "What are you offerin'?" inquired the

"I want my hat," exclaimed the gen

tleman. "I'll give you two-pence."

"What's it worth?" the boy inquired, "It's a new slik hat that I just gave la. 6d. for. I'll give you a threepenny-th if you'll run and get it for me."
"I think not," replied the boy, turn-

itg away. "I ain't in the business of funishing gents with seventeen bob hats for threepence. Let's have 10 per tent on the value for salvage, mister, and away I go. 'Ow does that strike yer?" and the boy stood expectant till the gentleman nodded.

### Vaudeville in Politics.

Cleveland Plain Dealer: Perhaps the time will come when the campaign ora-for will be succeeded by the vaudeville artist. He certainly was crowded aside in Montana by the song-and-dance man and the serio-comic vocalists, these new adjuncts to the vote-winning ma-chinery being furnished by Copper King Clark of unsavory senntorial fame, Yes, and they swept the field, too.

# Glorious News

Glorious News

Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of serofula, which had caused be great suffering for years. Terrible sores would break out on her head and face, and the best doctors could give no bein; but her cure is complete and her teath is excellent." This shows what bousands have proved—that Electric fitters is the best blood purifier known. It's the supreme remedy for coxema, teltiters is the best blood purifier known. It's the supreme remedy for coxema, telting said those. It stimulates liver, kidneys and howels, expels polsons, helps digention, builds up the strength. Only 10 sents. Sold by Logan Drug Co., drugstst. Guaranteed.

# Pain in Head, Side and Back.

years I suffered with pain in the head, pain in the side, and in the small of the back I was nervous and constipated and could not op. The pills and other medicines I tried ly made a bad matter worse. Then I tried lery King. One package cured me and ade a new woman of me.—Mrs. Th. Klee-mmer, Croton-on-Hudson, N. Y.

Celery King cures Constipation and Nerve, stomach, Liver and Kidney Diseases. 2

### FINANCE AND TRADE.

The Features of the Money and Stock Markets.

NEW YORK, Nov. 15 .- Money on call stendy at 31/405 per cent; last loan 31/2 per cent. Prime mercantile paper 41/405 per cent. Sterling exchange firm, with actual business in bankers' bills at \$4 8514 for demand and at \$4 80% for 60 days; posted rates \$4 81% and \$4 85%; commercial bills \$4 80@4 801/2. Silver certificates 64@65c. Bar silver 63%c. Mexican dollars 50%c. Government bonds weak. State bonds inactive.

Railroad bonds strong. Strength was renewed in the stock market to-day, but there was nothing like a resumption of the speculative enthusiasm of last week. There were more stocks that moved strongly upward than yesterday and there were fewer that closed to-day lower than they left off last night, but there was nevertheless a continuance of the irregular tendency in the market. points of strength, though more numerous, were still somewhat isolated or dis-associated, and the market did hot at any time show permeating and vigorous strength. The gains seemed to be due either to the operations of speculative pools working for an advance in specia stocks or to causes affecting the individual stocks. General Electric duplicated its gain of yesterday, with another 6 point rise, carrying it to 1601/4 or the large earnings reported. Yesterday's strength in the coalers became largely localized in New Jersey Central, which was up at one time 44 points on reports of coming increase in dividends. The movement of broadest scope for the day was in the winter wheat grangers, which advanced between 1 and 2 points all around on the good weather for the erop in that territory. The movement in Great Northern preferred and in Union Pacific was attributed to the reports of a working agreement looking to extension of traffic into each other's territory. Northern Pacific, after a rather slight advance, fell back to about last night's level. Consolidated Gas, Continental Tobacco, People's Gas, Tennesser Coal, Brooklyn Transit and some other specialties were strong in the same way ondon bought a small number of stocks on balance. The professional pressure against the market was relaxed and there was no further signs of urgent liquidation, although profit taking was in evidence at some points all day. Money was appreciably easier and a favorable bank statement on Saturday is beginning to be discounted. The sub-treasury operations have contributed about \$2,500,000 to the market, by reason of the falling off in internal revenue collections and large disbursements for pensions. There have been light currency shipments to New Orleans, but Chicago exchange rose to par to-day Reports from interior money markets are of easy conditions, due to a process

of unloosening after the election similar to that which occurred in the New York market. Arrivals of over \$3,000,000 in Australian gold are expected in San Francisco in a few days, which can be made available by telegraphic transfers through the sub-treasuries to the cash reserves of New York banks. There is a feeling that the large war loans im pending in England and Germany will probably not be offered until early next year. The statement of the foreign trade for October give increased confidence in the country's financial resources. The total exports an well as the excess of exports over imports are far greater than those for any previous month in the country's history, the excess of exports showing the astounding total of \$92,475,226. The phenomenal cotton exports are largely responsible

nary trade showing cannot be cause for any serious apprehension. The bond market was of the same character as the stock market, showing strength, but not at the high level of last week's activity. Total sales par

for this showing, but after allowing for

this the gratifying fact is shown that

the value of manufactured products ex-

ported shows an increase over October

of last year of nearly \$9,000,000. The

ability of the country to supply all re-quisite credits in view of this extraordi-

value \$2,760,000. United States refunding 2s and the 5s coupon declined 14 per cent and do registered and the old 4s, 1/4 per cent on the last call.

### Breadstuffs and Provisions.

CHICAGO-Wheat, having been sold to a standstill, rallied to-day chiefly on to a standstil, rained to-day chienly on profit taking by shorts, although there was some news of a bullish hue. De-cember closed ½6 over yesterday. Corn closed a shade higher and oats un-changed. Provisions advanced on light hog receipts, January pork closing 32%; changed. Provisions advanced on fight hog receipts, January pork closing 32%c, January lard 15c, and January ribs 20c

At the beginning of the session the talent beheld a paradox—the market holding steady on bearish news. Liver-pool fully reflected the decline here yesterday and shorts, taking advantage yesterday and shorts, taking advantage of the liquidation which was renewed in a moderate way on this fact, coveried to insure profits. Thus December, which had opened ½6 lower at 7½/c to 7½/c, railled to 72½/c. This trifling raily brought offerings from longs and December dropped to 71½/c, low price for this crop. Here the market gave evidences of having been sold to the last speculative bushel and prices steadied with a jerk. An Argentine cable reported 40 per cent damage to the crop of that country, and while this was denied by others later, it had its effect of that country, and while this was denied by others later, it had its effect among shorts. The opening of recently closed mills at Minneapolis also had its effect and December advanced to 72% The 72% c, around which figures the market held steady the remaining hour of the session. The rapid accumulations of stocks and the prediction of a good increase in the visible and in the world's shipments millitated against any radical action by bulls. On December covering the decline May difference narrowed to 3½ The seaboard reported thirty loads taken for export. Seaboard clearances in wheat and flour were equal to 373,000 bushels, compared with \$37,000 bushels, yesterday. Minneapolis and Duluth reported 259 cars, against 425 last week and 766 a year ago. Local receipts were fifty-two cars, ten of contract grade.

Corn was able to stand alone and did so, helped by a good shipping demand. Country offerings were freer, but the estimate for to-morrow was not suggestive that there was any rush among farmers to take advantage of the excellent weather for moving their hold-ines to market despite the premium No. nled by others later, it had its

ings to market despite the premium No

cellent weather for moving their holdings to market despite the premium No. 2 corn is now commanding in Chicago for delivery this month. The market was not an active one and the bulk of speculative trading was for the local account. Receipts were 34 cars, and this number being twenty-four cars in excess of the estimate caused a shade easier prices at the opening. December sold between 33%c and 36%c, and closed a shade higher at 35% 258c.

Oats were quiet and firm. Receipts only 106 cars, thirty-four cars under the estimate and the estimate for to-morrow gave no indication of improvement in that respect. The shipping demand was restricted to prices, at which business could not be profitably done. December sold between 21% 22c and 27% 22%c, and closed unchanged at 22c. Strength and a fair amount of activity held sway in the provisions pit. Packers and commission houses were liberal buyers, largely to cover shorts. The market was influenced by a run of hogs 7,000 under the estimate and by a sharp advance in prices at the stock yards. January pork sold between 316 52 and 51 52½; January lard between 36 55 and 56 7½, closing 15c higher at \$6 55.

Estimated receipts to-morrow: Wheat, 125 cars; corn, 325 cars; oats, 150 cars; corn, 235 cars; oats, 150 cars; corn, 2

Estimated receipts to-morrow: Wheat, 125 cars; corn, 325 cars; cats,
